

Corporate Partnerships

By working in partnership with Grapevine you'll have an opportunity to be associated with a charity "punching above its weight" to affect change for disabled people.

Partnering with a charity can enhance the reputation of your company among new and existing customers and the local community. It demonstrates your commitment to bringing a dramatic change to the lives of the UK's most vulnerable citizens.

Other benefits include improved employee morale and teamwork. Your employees can fundraise together, building new relationships and revealing potential managerial and leadership qualities.

Here a few of the ways to get involved:

- Charity of the year partnership
- Employee events
- Payroll giving
- Cause-related marketing
- Gifts in kind
- Corporate donations

Find out more about the opportunities we have available and how your company could benefit from a partnership by contacting:
